**Summary** — Highly motivated Frontend Developer with over 1.5+ years of experience crafting interactive and scalable user interfaces. Proven ability to leverage modern web technologies and frameworks to deliver exceptional software solutions. Meticulous attention to detail ensures clean, efficient code. Passionate learner who thrives in fast-paced environments, consistently demonstrating exceptional problem-solving skills and a commitment to exceeding expectations.

## Skills

**Frontend :** HTML5, CSS3, JavaScript, TypeScript, React.js, Redux, Next.js  
**Backend :** Node.js, Express.js, MongoDB  
**TestingTools :** Cypress, Git, GitHub, Jest

**UI Libraries :** Chakra UI, MUI, Tailwind CSS

## Experience

### Enterprise Minds, Inc

June 2023 – Present

Front end Developer

- Client:Beckn Protocol — Beckn protocol is a set of specifications consisting of APIs, data models, reference architecture, transaction mechanisms, and global standards that when adopted by digital platforms, enable the creation of decentralized networks. Developed multiple BAPs (Beckn Application Platform ) for different communities. Worked on mobility, retail and tourism applications. Developed many reusable components that are used all over BAPs.
- Developed multiple Beckn Application Platforms (BAPs) for various communities, including mobility, retail, and tourism.
  - Contributed to the development of reusable components that enhanced the consistency and efficiency of BAPs.
  - Played a key role in architectural decisions impacting the nature and scalability of the Beckn protocol.
  - Provided on-call support for critical issues and worked on root cause analysis for incident resolution

### Enterprise Minds, Inc

Sep 2022 – May 2023

Front end Developer

- Codelens — Codelens is a groundbreaking tool designed for developers to enhance web application insights. With Codelens, you can effortlessly capture and understand everything that unfolds on your website. Whether it's tracking down issues or understanding user experiences, Codelens allows you to replay and analyze sessions, providing clear insights into the root causes of problems. By meticulously recording the elements that make up your web page, including HTML and CSS, Codelens creates accurate visual records, even for the most complex single-page applications. Beyond visuals, Codelens captures console logs, JavaScript errors, network interactions, and custom errors, offering a comprehensive view of your application's behaviour.
- Developed a responsive website optimized for both desktop and mobile devices, resulting in a significant increase in user engagement.
  - Implemented a single-page application using React and Redux, improving overall performance and usability.
  - Utilized HTML, CSS, JavaScript, and React.js to create a dynamic, interactive user interface that enhanced the user experience.

### Enterprise Minds, Inc

Apr 2022 – Aug 2022

Software Developer Internship

- Gained hands-on experience in technologies like React.js, JavaScript, HTML5, CSS3, and SASS.
- Focused on implementing web development fundamentals, collaborating with teams to ensure the accuracy and quality of web applications.
- Improved overall user experience by making necessary changes based on grammar and functionality requirements.

## Education

### Amaravati University

PRMITR College of Engineering, Amaravati

Bachelor of Engineering- Information Technology

CGPA: 8.9

## Hobbies

- Singing: Enjoys performing and exploring various genres of music.
- Cooking: Passionate about experimenting with different cuisines and recipes.
